TOTAL CREDITS: 120

Incoming students do not have to enroll in WRD 110 if they have any of the following: 1) An ACT English score of 32 or higher; 2) an SAT Verbal score of 700 or higher; 3) or a score of 3, 4 or 5 on the English Language AP exam. In these situations, the student should replace WRD 110 with electives.

The A&S Foreign Language requires students to complete either 1) the 202 level of one language or 2) the 102 level of one language and the 201 level of a second language. Students who have taken at least 2 **years** of a language in high school should take a foreign language placement exam; you may be exempt from 1 or more of the beginning semesters of that language. Students who have taken at least 2 years of a language in high school can complete the A&S Foreign Language Requirement with 3 college semesters of a different language.

*To be discussed with your academic advisor. Please note: at least 2 upper-level BIO courses must include a laboratory component; Pre-Med students must take CHE 233; BIO 499 has a pre-requisite of BIO 395.

+ 6 hours of 'free' electives - that do not count toward any other requirement - must be taken. Additional electives may be required to reach the required minimum of 120 hours. Consider pursuing a 2nd major or minor with these elective hours.
